Projects

- **Spotify UI clone:**
Created a Spotify clone using *HTML* and *CSS*, focusing on visually appealing layout. The project includes a landing page, sidebar, header, and a search bar. Utilized Flexbox for creating a flexible design. The clone replicates key elements of YouTube's interface.
- **Simon Says Game:**
Built an interactive memory-based game using *HTML*, *CSS*, and *JavaScript*. The game challenges users to repeat an increasingly complex sequence of colours.
- **Medicine Recommendation System (Academic Project):**
As part of B.Tech. Research Project (7th Semester, team of five), we used Machine Learning techniques and python, to achieve an accuracy of 95.6% in recommending medicines based on the symptoms. I was responsible for the UI for the application.
